OLUWAYEMI OYINLOLA

SOFTWARE ENGINEER

Oluwayegbemiga avenue, Okitipupa, Ondo State

09133519489

Oyinlola.tech@icloud.com

Oyinlola.site

CORE COMPETENCIES

REST API development

Async programming

Secure coding

Data validation

SQL and schemas

Service integration

Performance tuning

Debugging

Git workflows

Documentation

Code quality

Deployment Setup

Problem Solving

Team Communication

EDUCATION

BACHELOR'S DEGREE
Western University
2021 – 2025

DIPLOMA
Newdich Technology Institue
2023 – 2025

PROFESSIONAL PROFILE

Software developer experienced in building dependable backend services and APIs with Node.js and JavaScript. Strong focus on performance, security and clean architecture, with the ability to contribute effectively inside fast moving product teams. Comfortable taking features from idea to development, improving system reliability and supporting scalable growth. Currently deepening expertise in cybersecurity and system design while delivering maintainable, production ready solutions.

PROFESSIONAL EXPERIENCE

SENIOR SOFTWARE DEVELOPER & FOUNDER   JAN 2025– PRESENT
ZudoMart –Remote

- Led development of scalable marketplace and gig platform combing e-commerce, live commerce and content features.
- Architected backend APIs with Node.js, secure payment/escrow systems and robust database structure.
- Built responsive frontends using React and Vite, integrating seamlessly with backend services.
- Delivered user dashboard, POS systems, chat and live streaming functionality.
- Managed a small team, ensuring timely feature delivery, code quality and maintainable architecture

SOFTWARE ENGINEER   JAN 2024 – AUG 2025
Newdich Technologies –Freelance / Volunteer

- Developed full-stack web applications using Noe.js, React, Vite, HTML and CSS.
- Built and integrated RESTful APIs handled database management and implemented secure coding practices.
- Debugged and optimized code for performance, reliability and maintainability.
- Collaborated on testing, documentation and deployment processes.

JUNIOR SOFTWARE DEVELOPER   JUN 2022 – DEC 2023
Telente Technologies –Remote

- Assisted in frontend development and connecting interface to backend services
- Gained hands-on experience with Node.js. REST APIs, and basic database management.
- Contributed to code reviews, testing and bug fixes in live projects.
- Learned development workflows, version control and project management.
